Subject index

Acid solutions
Low potential anodic polymerization of benzene in strong acid and superacid solutions (Goldenberg et al.) 151
Adsorbed intermediate
Determination of the adsorbed intermediate of iodide electro-oxidation on a platinum electrode by rotating disk electrode potential step coulometry (RDE–PSC) (Chen et al.) 321
Adsorption
Adsorption of iron on platinum (Lamy-Pitara et al.) 363
Adsorptive accumulation
Peak current–frequency relationship in adsorptive stripping square-wave voltammetry (Komorsky-Lovrić et al.) 297
Alkali metals
Electrodeposition of alkali metals on solid and liquid mercury electrodes (Lu, Baranski) 105
Alkaline solutions
Hydrogen absorption in palladium electrodes in alkaline solutions (Enyo, Biswas) 309
Anodic polymerization
Low potential anodic polymerization of benzene in strong acid and superacid solutions (Goldenberg et al.) 151
Aqueous chloride solution
Electrochemical quartz crystal microbalance studies of potentiodynamic electrolysis of aqueous chloride solution: surface processes and evolution of H_2 and Cl_2 gas bubbles (Li et al.) 345
Aqueous solutions
Ionic interactions in aqueous solutions of organic electrolytes. Activity coefficients for (sodium chloride + sodium hydrogen malonate + sodium malonate) (aq) at 25°C. Application of Pitzer's equations (Fernández-Mérida et al.) 11

Basicity
Influence of basicity of dopant anions on the conductivity of polyaniline (Saraswathi et al.) 223
Benzene
Low potential anodic polymerization of benzene in strong acid and superacid solutions (Goldenberg et al.) 151
Bromide medium
Effect of hexamethylenetetramine as a corrosion inhibitor for copper in bromide medium (Brolo et al.) 83

Carbon blacks
Oxygen reduction in acid media: effect of iron substitution by cobalt on heat-treated naphthalocyanine impregnations supported on preselected carbon blacks (Biloul et al.) 163
Carbon fibre electrode
Degradation of trichloroethylene in water + acetonitrile by flow-through electrolysis using a carbon fibre electrode (Nagaoka et al.) 187
Catecholamine
Highly sensitive high-performance liquid chromatography detection of catecholamine with interdigitated array microelectrodes (Takahashi et al.) 253
Cobalt
Oxygen reduction in acid media: effect of iron substitution by cobalt on heat-treated naphthalocyanine impregnations supported on preselected carbon blacks (Biloul et al.) 163
Cobalt(III) complex
An electrochemical oscillator: the mercu-

ry/chloropentammine cobalt(III) oscillator (Schlegel, Paretti) 67
Copper
Effect of hexamethylenetetramine as a corrosion inhibitor for copper in bromide medium (Brolo et al.) 83
Mass spectrometric cyclic voltammetry of copper in alkaline formaldehyde solutions (Jusys, Vaškelis) 93
Copper(I) oxide layers
In-situ examination of electrochemically formed Cu_2O layers by EXAFS in transmission (Druska, Strehblow) 55
Corrosion inhibitor
Effect of hexamethylenetetramine as a corrosion inhibitor for copper in bromide medium (Brolo et al.) 83
Counter-ion effect
Counter-ion and pH effect on the electrochemical synthesis of polyaniline (Duić, Mandić) 207
Cyclam
Why the reduction of $Hg(cyclam)^{2+}$ exhibits a single voltammetric peak while the oxidation of Hg in the presence of cyclam produces two voltammetric peaks (Balazs, Anson) 75

Dopant anions
Influence of basicity of dopant anions on the conductivity of polyaniline (Saraswathi et al.) 223

Electrochemical impedance
Comparison of sine wave and white noise analysis for electrochemical impedance measurements (Gabrielli et al.) 33
Electrochemical reduction
In-situ examination of electrochemically formed Cu_2O layers by EXAFS in transmission (Druska, Strehblow) 55
Electrode processes
Electrode reactions of nitroxide radicals. Part 10. Kinetics and mechanisms of the redox reactions of the 2,2,6,6-tetramethylpiperidine-1-oxyl derivatives in acetonitrile solutions on the gold electrode. Experiment and simulation analysis (Krzyczmonik, Scholl) 233

Ferrocenyl moieties
Conductive properties of ferrocenyl-derivatized polyaniline films (Rudzinski et al.) 265
Formaldehyde solutions
Mass spectrometric cyclic voltammetry of copper in alkaline formaldehyde solutions (Jusys, Vaškelis) 93

Gold electrode
Electrode reactions of nitroxide radicals. Part 10. Kinetics and mechanisms of the redox reactions of the 2,2,6,6-tetramethylpiperidine-1-oxyl derivatives in acetonitrile solutions on the gold electrode. Experiment and simulation analysis (Krzyczmonik, Scholl) 233

Hexamethylenetetramine
Effect of hexamethylenetetramine as a corrosion inhibitor for copper in bromide medium (Brolo et al.) 83
Hydrogen absorption
Hydrogen absorption in palladium electrodes in alkaline solutions (Enyo, Biswas) 309

Ice
Cyclic voltammetry at gold, platinum and carbon microelectrodes in ice without added supporting electrolyte: evidence for liquid microphases at temperatures well below the freezing point of water (Bond, Pfund) 281
Interdigitated array microelectrodes
Highly sensitive high-performance liquid chromatography detection of catecholamine with interdigitated array microelectrodes (Takahashi et al.) 253
Iodide ion
Determination of the adsorbed intermediate of iodide electro-oxidation on a platinum electrode by rotating disk electrode potential step coulometry (RDE–PSC) (Chen et al.) 321
Ionic interactions
Ionic interactions in aqueous solutions of organic electrolytes. Activity coefficients for (sodium chloride + sodium hydrogen malonate + sodium malonate) (aq) at 25°C. Application of Pitzer's equations (Fernández-Mérida et al.) 11
Iron
Adsorption of iron on platinum (Lamy-Pitara et al.) 363
Oxygen reduction in acid media: effect of iron substitution by cobalt on heat-treated

naphthalocyanine impregnations supported on preselected carbon blacks (Biloul et al.) 163

Liquid microphases
Cyclic voltammetry at gold, platinum and carbon microelectrodes in ice without added supporting electrolyte: evidence for liquid microphases at temperatures well below the freezing point of water (Bond, Pfund) 281

Mercury electrode
Why the reduction of $Hg(cyclam)^{2+}$ exhibits a single voltammetric peak while the oxidation of Hg in the presence of cyclam produces two voltammetric peaks (Balazs, Anson) 75
Electrodeposition of alkali metals on solid and liquid mercury electrodes (Lu, Baranski) 105
Voltammetry of retinal in phospholipid monolayers adsorbed on mercury (Nelson) 327

Microdisc electrodes
Cyclic voltammetry at gold, platinum and carbon microelectrodes in ice without added supporting electrolyte: evidence for liquid microphases at temperatures well below the freezing point of water (Bond, Pfund) 281

Naphthalocyanine impregnations
Oxygen reduction in acid media: effect of iron substitution by cobalt on heat-treated naphthalocyanine impregnations supported on preselected carbon blacks (Biloul et al.) 163

Nitroxide radicals
Electrode reactions of nitroxide radicals. Part 10. Kinetics and mechanisms of the redox reactions of the 2,2,6,6-tetramethylpiperidine-1-oxyl derivatives in acetonitrile solutions on the gold electrode. Experiment and simulation analysis (Krzyczmonik, Scholl) 233

Organic electrolytes
Ionic interactions in aqueous solutions of organic electrolytes. Activity coefficients for (sodium chloride + sodium hydrogen malonate + sodium malonate) (aq) at 25°C. Application of Pitzer's equations (Fernández-Mérida et al.) 11

Oscillation
An electrochemical oscillator: the mercury/chloropentammine cobalt(III) oscillator (Schlegel, Paretti) 67

Oxidation
Determination of the adsorbed intermediate of iodide electro-oxidation on a platinum electrode by rotating disk electrode potential step coulometry (RDE–PSC) (Chen et al.) 321

Oxide growth
Platinum oxide growth kinetics for cyclic voltammetry (Heyd, Harrington) 19

Oxygen electroreduction
Oxygen reduction in acid media: effect of iron substitution by cobalt on heat-treated naphthalocyanine impregnations supported on preselected carbon blacks (Biloul et al.) 163

Palladium electrodes
Hydrogen absorption in palladium electrodes in alkaline solutions (Enyo, Biswas) 309

Parallel incident spectroelectrochemical cell
Determination of the rate constant of a catalytic reaction using a parallel incident spectroelectrochemical cell (Dong, Xie) 197

Peak current–frequency
Peak current–frequency relationship in adsorptive stripping square-wave voltammetry (Komorsky-Lovrić et al.) 297

pH effect
Counter-ion and pH effect on the electrochemical synthesis of polyaniline (Duić, Mandić) 207

Phospholipid monolayers
Voltammetry of retinal in phospholipid monolayers adsorbed on mercury (Nelson) 327

Platinum
Adsorption of iron on platinum (Lamy-Pitara et al.) 363
Platinum oxide growth kinetics for cyclic voltammetry (Heyd, Harrington) 19

Polyaniline
Counter-ion and pH effect on the electrochemical synthesis of polyaniline (Duić, Mandić) 207
Influence of basicity of dopant anions on the conductivity of polyaniline (Saraswathi et al.) 223

Conductive properties of ferrocenyl-derivatized polyaniline films (Rudzinski et al.) 265
Polymeric membranes
Further studies on the potentiometric salicylate response of polymeric membranes doped with tin(IV)-tetraphenylporphyrins (Kibbey et al.) 135
Polyphenylene
Low potential anodic polymerization of benzene in strong acid and superacid solutions (Goldenberg et al.) 151
Polythiophene
From oligomers to polymer. An insight into the electrochemical doping–dedoping of polythiophene from electrochemical data on thiophene oligomers (Xu, Horowitz) 123
Potentiodynamic electrolysis
Electrochemical quartz crystal microbalance studies of potentiodynamic electrolysis of aqueous chloride solution: surface processes and evolution of H_2 and Cl_2 gas bubbles (Li et al.) 345

Rate constant
Determination of the rate constant of a catalytic reaction using a parallel incident spectroelectrochemical cell (Dong, Xie) 197
Redox
Peak current–frequency relationship in adsorptive stripping square-wave voltammetry (Komorsky-Lovrić et al.) 297
Retinal
Voltammetry of retinal in phospholipid monolayers adsorbed on mercury (Nelson) 327

Salicylate
Further studies on the potentiometric salicylate response of polymeric membranes doped with tin(IV)-tetraphenylporphyrins (Kibbey et al.) 135
Sine waves
Comparison of sine wave and white noise analysis for electrochemical impedance measurements (Gabrielli et al.) 33
Surface processes
Electrochemical quartz crystal microbalance studies of potentiodynamic electrolysis of aqueous chloride solution: surface processes and evolution of H_2 and Cl_2 gas bubbles (Li et al.) 345
Synthesis
Counter-ion and pH effect on the electrochemical synthesis of polyaniline (Duić, Mandić) 207

2,2,6,6-Tetramethylpiperidine-1-oxyl
Electrode reactions of nitroxide radicals. Part 10. Kinetics and mechanisms of the redox reactions of the 2,2,6,6-tetramethylpiperidine-1-oxyl derivatives in acetonitrile solutions on the gold electrode. Experiment and simulation analysis (Krzyczmonik, Scholl) 233
Thiophene oligomers
From oligomers to polymer. An insight into the electrochemical doping–dedoping of polythiophene from electrochemical data on thiophene oligomers (Xu, Horowitz) 123
Tin(IV)-tetraphenylporphyrins
Further studies on the potentiometric salicylate response of polymeric membranes doped with tin(IV)-tetraphenylporphyrins (Kibbey et al.) 135
Trichloroethylene degradation
Degradation of trichloroethylene in water + acetonitrile by flow-through electrolysis using a carbon fibre electrode (Nagaoka et al.) 187

Water
Cyclic voltammetry at gold, platinum and carbon microelectrodes in ice without added supporting electrolyte: evidence for liquid microphases at temperatures well below the freezing point of water (Bond, Pfund) 281
White noise analysis
Comparison of sine wave and white noise analysis for electrochemical impedance measurements (Gabrielli et al.) 33
